THE COVENANT UNIVERSITY CONTEXT

VISION

To be a leading World-Class University, committed to raising a New Generation of Leaders in all fields of Human endeavour.

MISSION STATEMENT

To train students who will be mentally resourceful, intellectually equipped, entrepreneurially self-dependent, futuristically visionary, responsibility sensitive and emotionally stable through a human development-based curriculum with emphasis on the development of the Total Man.

MANDATE

“Raising a new generation of leaders through a qualitative and life-applicable training system that focuses on value and skill development.”

“Raising a new generation of leaders through a broad-based qualitative education built on sound biblical principles culminating in the birth of path-finders, pace-setters and trail-blazers.”

“Raising a new generation of leaders who shall redeem the battered image of the black race and restore her lost glory as this trained army of reformers begin to build the old wastes, repair the wasted cities and raise the desolation of many generations.”

FOUNDING PHILOSOPHY

Covenant University is built on the philosophical platform espoused in the following aphorisms:

- A departure from form to skill
- A departure from knowledge to empowerment
- A departure from figures to future building
- A departure from legalism to realism
- A departure from points to facts
- A departure from “mathe-matics” to “life-matics”.
