## **DEDICATION**

This work is dedicated to God Almighty, the immortal, invisible and the only wise one. I also dedicate this to my beloved husband and Children who supported and bear with me on this journey.

## ACKNOWLEDGMENTS

My profound gratitude goes to God almighty the one who has made everything beautiful in its own time. I am grateful for the opportunity to pursue this program, without you by my side, this would never be a success, I return all the glory Lord, I am forever grateful for your loving kindness

I recognize and appreciate the Chancellor of Covenant University, Dr. David O. Oyedepo for the spiritual ambience and vision. I also appreciate the management team of Covenant University ably led by the Vice Chancellor, Prof. Abiodun H. Adebayo, the Deputy Vice Chancellor, the Acting Registrar, Dr. Emmanuel Igbani, the Dean SPS, Prof. Akan B. Williams, the Sub-dean, Prof. Obinna C. Nwinyi and the Dean, College of Management and Social Sciences Prof Babajide Abiola. Head of Banking and Finance Department, Prof. Felicia Olokoyo. To my Supervisor, Prof Adetiloye, I say thank you for your guidance, support and fatherly advice in seeing this work to a limelight. To all my Lecturers and Non lecturers in Banking and Finance department, I am immensely grateful for all your contribution and guidance in one way or the other.

To you my fellow course mate, most especially my team (Franklin, Michael and Sandra) I say a big thank you, we all weathered the storm together. My appreciation will not be complete without specially thanking my husband, Ayodeji Adebola, for his unrelenting support, backup, provision, and prayers all through the program. I also appreciate my children; Precious, Praise and Peculiar for supporting me to go back to school and cheering me on. Thank you, sweeties.

Once again, thank you all, may the good Lord reward your efforts.

## ABSTRACT

*The study's major objective was to examine how exchange rate fluctuations and market capitalization had impacted foreign portfolio investment in Nigeria. This would help Nigeria achieve the Sustainable Development Goals 8 of Economic growth and 17 of partnerships with other nations. The study adopted foreign portfolio investment as its dependent variable and exchange rate fluctuations and market capitalization as its independent variables plus control variables of external debt, inflation, external reserve, real gross domestic product, real interest rate, and financial openness. The study used monthly data from 2014M1 to 2021M4 and sourced secondarily from the Central Bank of Nigeria statistical bulletin 2020 edition, Nigeria Exchange group(NGX) and World Development Indicators. The sourced data was analyzed using the Bayesian Vector Autoregression model, and the Granger Causality test. Findings from the study showed that exchange rate was positively significant in impacting foreign portfolio investment while market capitalization had a negative and significant impact on the same dependent variable. Also foreign portfolio investment granger causes exchange rate fluctuations. The study thus recommended, among others, that the internationalization of the Nigerian capital market is a necessity for both development of the market and also attracting foreign investors to the market.*

**Keywords:** Foreign Portfolio Investment, Exchange rate Fluctuations, Market Capitalization, Bayesian VAR, Granger causality
