## **DEDICATION**

This research work is dedicated to God, who has been my strength and my guide throughout my academic journey. I am grateful for His wisdom, grace, and love that have sustained me throughout this programme

## ACKNOWLEDGEMENTS

I humbly extend my heartfelt appreciation to God, who has bestowed upon me the fortitude, sagacity, and resilience to culminate this scholarly opus. I acknowledge and hold in high regard the Chancellor of Covenant University, the visionary Dr. David O. Oyedepo, for fostering an atmosphere imbued with spirituality. I am equally grateful to the proficient management team of Covenant University, skillfully guided by the Vice-Chancellor, Professor Abiodun H. Adebayo, the Acting Registrar, Mrs. Regina Tobi-David, the Dean of the School of Postgraduate Studies, Professor Akan B. Williams, the Sub-Dean, Dr. Emmanuel O. Amoo, and the Dean of the College of Management and Social Sciences, for their unwavering support and timely endorsements. My profound gratitude extends to Professor Ochei A. Ikpefan, the Head of my Department, whose resolute backing has been an enduring fount of inspiration. I consider myself fortunate to have imbibed wisdom from his tutelage. Your support is genuinely appreciated, Ma. I would like to express my deepest appreciation to Dr. Tolulope F. Adesina, my esteemed supervisor and mentor, whose resolute support, guidance, and expertise have played an instrumental role in accomplishing this dissertation. My heartfelt gratitude to you, Ma. Additionally, I extend my gratitude to the PG Coordinator of the department, Dr. Benjamin Ehikioya and Dr. Hezekiah O. Falola, for his administrative assistance. I am also grateful to Prof. Omotayo Osibanjo, Prof. Ikpefan Ochei Ailemen Prof. Kehinde A. Adetiloye, Dr Alexander E. Omahnkhalen, Prof. Worlu Rowland, Prof. Chinonye Love Moses, Dr. Salau, O. P., Dr. Oyewunmi, Dr Salau, A. E., Dr. Ufua Daniel, and all other esteemed faculty members of the Finance Department and Business Management Department. Thank you immensely for your unwavering support throughout the course of this programme. I convey my deepest appreciation to my beloved parents, Rev (Dr.) Sola and (Mrs.) Kehinde Ogungbe, for their unwavering support, fervent prayers, and unwavering encouragement throughout my academic journey. Their boundless love, sacrifices, and steadfast belief in my potential have been pivotal in my personal and professional development. They have stood as my pillars of strength, providing guidance and reassurance during challenging times, and rejoicing in my accomplishments with unwavering pride. To my siblings, Abiodun, David and Ayo, thank you for your ceaseless support and encouragement. I hold each and every one of my friends and classmates in deep regard for their unwavering support and prayers throughout the duration of this programme. My affection for all of you knows no bounds.

## ABSTRACT

*This research investigates the relationship between E-banking technologies and the financial performance of deposit money banks in Nigeria from 2000 to 2022. The study's objectives include examining the impact of technological tool applications on bank performance, exploring the causal relationships among E-banking tools and bank performance, and assessing the short-term and long-term dynamics between E-banking and bank financial outcomes. An ex post-facto research design was employed, utilizing time series data and econometric techniques analyzed with E-views software. The findings demonstrate a complex relationship between E-banking tools and bank financial performance. Automated teller machines (ATMs) had a negative short-term impact but a positive long-term effect, suggesting that strategic investments in ATM technology are crucial for sustainable growth. Interbank transfers similarly exhibited a short-term adverse impact but a positive long-term contribution to bank performance. Mobile money volume negatively influenced bank performance in the short term but showed a positive impact in the long term, underscoring the transformative potential of mobile banking services. In contrast, web-based transactions showed a positive short-term impact but a negative long-term effect, indicating the nuanced dynamics of online banking on financial outcomes. The study found no clear causal relationship between ATMs and interbank transfers with deposit money bank performance, suggesting that other factors might be more significant in shaping bank financial outcomes. However, a unidirectional causal relationship was observed from mobile money usage to deposit money bank performance, highlighting the significant role of mobile banking in influencing financial outcomes. These results align with previous research, indicating that E-banking technologies offer both challenges and benefits to bank performance. The findings contribute to the broader literature on E-banking by providing insights into the Nigerian banking context, emphasizing the importance of strategic investments in E-banking technologies, and highlighting the pivotal role of mobile banking services in driving positive financial outcomes.*
