Description

Abstract: Cyber-attack is an attempt by hackers to damage or destroy a computer network or system for purposes of mischief, fraud, and/or hedonism. To say that the incidences of cyber-attack are increasing rapidly in Nigeria is not only an understatement but also a cliché. From the organized private sector to public service, hackers have not spared any entity. More recently, governments in both developed and developing countries have had to deal with this menace on a frequent basis. The government of Nigeria is not an exception the thorn ...
