Development and Underdevelopment or
Development Studies)

FIRST EDITION

INTERNATIONAL STUDENT EDITION

DEDICATION

Perspectives in Political Science is dedicated to all the Progressive African People past and present and to my Godfather and Wife (Mr. and Mrs. Alfred and Catherine Schwarz) in Switzerland who have been serving as my role models over the years.

ACKNOWLEDGEMENTS

The writing of this book would not have been possible but for the materials I got from all the authors mentioned in the bibliography. I remain grateful to the above authorities.

I have to thank the University of Calabar Peer Review and Press Management Committee which after a thorough assessment of the book issued the International Standard Book Number (ISBN 978-065-192-6) to me.

My thanks also go to Messrs: Bate and Kima of SONEL who gave me information on the role of SONEL as a public corporation in Cameroon; Mr. Joseph NtuiNdifon of the Nigerian Electricity Power Authority (NEPA) which was renamed Power Holding Company of Nigeria(PHCN) and now Electricity Distribution Company for the materials on NEPA,PHCN, Portharcort Electricity Distribution Company(PHEDC),Enugu Electricity Distribution Company(EEDC),

Benin Electricity Distribution Company, Benue Electricity Distribution Company(BEDC),Kaduna Electricity Distribution Company(KEDC) Ibadan Electricity Distribution Company(IBEDC),Ikeja Electricity Distribution Company(IKEDC),Eko Electricity Distribution Company (EKEDC),Abuja Electricity Distribution Company(ABEDC), Jos Electricity Distribution Company(JEDC),Kano Electricity Distribution Company(KEDC) and Yola Electricity Distribution Company(YEDC).

I must also thank my past and present students who informed me that all those who used my first textbook – Introduction to Political Science to write Public Service Examinations or “Concours” in French West African Countries, passed the examinations. They however told me to write on Public Corporations, the Civil Service and the Electoral System because questions from these topics use to “embarrass” them during public examinations. This, I did by writing Perspectives in Political Science which is another textbook in Government which would be useful to students.

I remain grateful to Messrs: Mbua Richard Akong Ojong and Check Watad who typed and proof-read the manuscript.

PREFACE

I have written this book: Perspective in Political Science with the hope of illuminating all the topics in the eleven Chapters of the book using the African and European Perspectives. It is hoped that this will also help us advance the study and understanding of Constitutional Developments in Nigeria and other West African countries like Ghana, Liberia and Sierra Leone.

This book can help candidates pass their Examinations at the university level and public examinations for recruitment into the Civil Service in most African Countries with no stress. Some job applicants complain that they often encounter questions on public corporations, public opinion, the electoral system etc but they have no idea about the above particulars. This book now fills the above gap because one cannot give what he does not have.

Students in Political Science Departments in all Universities in the World, need a book like, Perspectives in Political Science which can help them study and comprehend courses like – POS 112: Nigerian Constitutional Development. POS114: Introduction to African Politics PAD417: Nigerian Local Government. PAD 222: Introduction to Local Government. POS301: Public Corporations. POS436: Constitutionalism, POS418: Party and Electoral System etc.

This book will not only be useful for Undergraduates and Postgraduate students in Universities, those writing Public Examinations or “Concours” but it will also be useful for all those who love knowledge and the Master Discipline of Political Science.
