1. **The Name: Covenant University (CU)**
   All over Africa, and Nigeria in particular, a great significance is attached to names. They portray meanings and convey important messages. Names reflect circumstances of birth or events. The word “Covenant” was chosen as an expression of the University's total commitment and vow to make a Total Man of her students. It reflects the intention of the proprietors of the University to uphold a binding agreement with students to deliver their desires for excellence and career exploits by offering them the best in educational attainment and by offering their parents/guardians the best value for their investment. It is also common knowledge that every covenant is ratified by blood and, as a church-sponsored University, we consider the blood of Jesus Christ, which is the blood of the everlasting covenant, as our stronghold in the fulfilment of this awesome obligation. Covenant University vows to make of her graduates expert thinkers, leader-managers, and hyper-resourceful technocrats in all fields of human endeavour.

2. **Our Vision**
   To be a leading World-Class Christian Mission University, committed to raising a new generation of leaders in all fields of human endeavour.

3. **Our Mission**
   To create knowledge and restore man’s dignity through a Human Development concept of the Total Man, employing innovative, leading-edge, teaching and learning methods. Application of research that promotes integrated, life-transforming values through Science, Technology and Human Capacity Building.

   On October 21, 2002, the African educational landscape was radically altered by the formal entry of Covenant University (CU) into the Higher Education context. The University is located at Canaanland, Ota, Ogun State, Nigeria. The University is a growing, dynamic vision-born and vision-driven University, founded on a Christian mission ethos and committed to pioneering excellence at the cutting edge of learning.

   The University’s specific mandate can be stated as follows:
   “Raising a new generation of leaders through a qualitative and life-applicable training system that focuses on value and skill development”.
   “Raising a new generation of leaders through a broad-based qualitative education built on sound biblical principles culminating in the birth of path-finders, pace-setters and trail-blazers”.
   “Raising a new generation of leaders who shall redeem the battered image of the black race and restore her lost glory as this trained army of reformers begins to build the old wastes, repair the wasted cities and raise the desolation of many generations”.

4. **Our Founding Philosophy**
   In response to the global demand for a departure from dogmatism to dynamism in the existing educational system, Covenant University is built on the following philosophical platform:
   - a departure from form to skill
   - a departure from knowledge to empowerment
   - a departure from figures to future-building
   - a departure from legalism to realism
   - a departure from mathe-matics to life-matics.

   This is reflected in our motto: “Raising a New Generation of Leaders”.

5. **Our Objectives**
   The objectives of the University are to:
   (a) provide facilities for learning and give instructions and training in such areas of knowledge that will produce sound and mentally
equipped graduates, who will provide intellectual leadership in academic institutions, industry and the public sector through the Total Man Concept approach;

(b) develop and offer academic and professional programmes leading to the award of diplomas, first degrees and higher degrees, which emphasize planning, adaptive and technological maintenance, developmental and productive skills;

(c) promote by research and other means, the advancement of knowledge and its practical application to social, cultural, economic, scientific and technological problems;

(d) encourage and promote scholarship and conduct research in all fields of learning and human endeavour;

(e) disseminate scientific and technological knowledge among scientists, researchers, industries, trade services and other bodies; and

(f) relate its activities to the technological, scientific and socio-economic needs of the people of Nigeria and to undertake other activities appropriate for a University of the highest standard.

6. Our Core Values

Our Core Values as a University are the defining components of the Covenant University Vision and they reflect our beliefs in the encrypted truths that firmly define our purpose and the underlining ethos of our existence as a University.

As a University, we strongly uphold the practices embedded in our Core Values and strive to integrate these Values into all facets of our functions and operations as a University. We expect that students of Covenant University will visibly demonstrate and integrate the virtues embedded in these Core Values in their daily conduct as students who are being raised along the Vision lines of raising a New Generation of Leaders for the Continent of Africa on the Total Man Concept-driven developmental platform. All students are expected to adhere strictly to the University's Core Values in their day-to-day activities within or outside the University.

The Covenant University Core Values are: Spirituality, Possibility Mentality, Capacity Building, Integrity, Responsibility, Diligence and Sacrifice

**Spirituality**

This forms the bedrock of our existence as a University and defines every aspect of our perations and context. The Christian ethos underlies our activities and conducts at all times and every student of Covenant University is expected to exhibit character traits and dispositions of a Jesus-centred heritage. The Jesus-factor centred approach to all issues is non-negotiable and central in the pursuit of our mandate in raising a New Generation of leaders. To this extent, therefore, students are to be committed to maintaining a high level of spirituality and act in such a manner to facilitate their spiritual growth. Attendance at Chapel Services, which every student is expected to attend with a Bible, notebook and pen, are a compulsory and essential part of students' spiritual development. Students are also expected to demonstrate a deep reverence for God at all times.

**Possibility Mentality**

Students of Covenant University are expected to exhibit a royal carriage, attitude, habit and character, exuding self-confidence and dignity at all levels of interaction and in general conduct. They are expected to see themselves as persons of worth and value, taking pride in their uniqueness as individuals with a positive mind-set devoid of any trace of inferiority.

**Capacity Building**

This is related to commitment to a life-style of continuous academic and personal development, striving to be continuously relevant to the overall vision requirement of the University as well as her core mission, goals and objectives. Students are encouraged to constantly seek paths for self-improvement. Openness to learning new skills and taking on board new information is a trait expected of Covenant University students in order to have robustness and depth in the quality of their output.
Integrity

Students of Covenant University are expected to demonstrate traits of honesty, uprightness and trustworthiness at all times. They must ensure that they are accountable, transparent and open in all their dealings. They shall flag truth as a virtue at all times, particularly in conduct during examinations, obeying the rules and regulations of the University, being spiritually sound, morally upright and having a good conscience.

Responsibility

We are committed to inculcating a sense of responsibility in our students. We believe in the place of discipline for effective leadership. We expect our students to respond to issues as demanded not as convenient. Here at Covenant University, our students are not permitted to do what they like but what is right. Punctuality at lectures, as well as prompt response to assignments as demanded, is a desired trait of responsibility.

Diligence

Students of Covenant University are expected to be deeply committed to their assignments. We expect that they will extol the virtues of hard work and constantly strive towards excellent attainment in all they do.

Sacrifice

Sacrifice is the ultimate price for outstanding leadership. It is the quality of sacrifice that defines great leadership. We therefore expect students of Covenant University to go the extra-mile and pay the extra-price in the attainment of their set goals. Raising an altar of sacrifice in pursuit of their dreams is what must distinguish and define the Covenant University student.

7. The Total Man Concept

The Total Man Concept (TMC) is Covenant University's custom-built Programme that constitutes the core concept of her academic programmes.

This concept centres on ‘developing the man that will develop his world.’ It is designed to make the student become intelligently conscious of his environment and thus be able to maximize his potential.

The programmes of the University are first directed at 'the person' before his profession. In this way, the University will raise a generation of experts who possess the capacity to face and manage challenges.

The TMC Programme centres on three components of the human personality: the spirit, the mind, and the body.
The Spiritual Man

Spiritual development is to us a major force for the evolvement of the Total Man, as mental excellence and understanding are generated through the vital force in man, which is the Spirit of God and the Spirit of Intelligence.

As a University sponsored by a Christian Mission, character formation is considered as a spiritual issue that is instilled by self-discipline and commitment to the principles enunciated by our Lord Jesus Christ.

Covenant University provides opportunities for spiritual development through various avenues, including spiritual formation programmes and counselling, and also by creating leadership opportunities.

The Intellectual Man

Covenant University students enjoy the highest standards of excellence through the institution of academic programmes that are innovative, creative and functional.

Covenant University also encourages students to be inquisitive, bold and forthright in asking questions and facing the challenges of academic leadership.

The Total Man concept is also promoted through the introduction of a system of compulsory, theoretical and practical courses, all of which must be passed before one can be considered for a degree from the University. In addition to normal General Studies Courses, we have included our own specially-designed courses in areas such as: biographical studies, entrepreneurship, family life, human development process, leadership development, mental development, success concepts, work ethics and Towards the Total Graduate (TTG) Programme.

The Physical Man

The body is a vital component of the Total Man. Covenant University is committed to providing avenues for sound physical development via recreational activities that engage the body and also enhance personality development, stimulating the cultivation of lifestyles that are conducive to healthy living. We thus encourage students to participate in sporting activities.

8. The Total Graduate

The Covenant University graduate will be mentally resourceful, intellectually reinforced, enterprisingly self-dependent, futuristically visionary and responsibility-sensitive to the changes demanded for the leadership role or dominion nature he is made for. He shall be a Total Man.

This laboratory is located at the Centre for Learning Resources and hosts 40 units of Dell GX 520 Optiplex PIV 3.0 GHz systems with 15” Dell TFT Screens and printers. This is a resource centre for faculty, instructors and students' research, using multimedia as well as access to the virtual library and University-subscribed databases.

Cybercafés
Cybercafé is an operational unit of CSIS. Its purpose is to provide internet services to students, faculty, staff, researchers and the University at large. The University has two cybercafés equipped with scanners and printers. They have a combined installed capacity of about 100 computers which are connected via a dedicated single mode fibre optic link to high speed internet access. These essentially cater for paid commercial services.

Language Laboratory
This laboratory is equipped with 30 device interconnected high performance computers and is essentially optimized for language instruction and learning.

(b) Data Centre
The Data Centre has greater network speed for servers and workstations with the installation of 25 high performance IBM computer systems in a client server windows environment. There are two heavy duty 45 ppm printers, scanner and risograph equipment. In addition, there is the deployment of an optical mark reader/scanner for grading objective answer scripts. This automation significantly reduces the burden of manually marking large numbers of objective answer scripts while securely, reliably and efficiently reading marks that students make, on a machine readable answer sheet. This multiple choice question system has the added advantage of providing a basis to test learning outcomes as well as providing self assessment which the Centre executes regularly.

(c) College Portal
Access to modern information technology is essential to Covenant University's mission of providing the students with educational services of the highest quality. The use of the University's information technology (College Portal) resources to receive or distribute copyrighted material without proper authorization from the copyright holder is strictly prohibited.

Students are not permitted to establish servers on nonuniversity owned machines using campus facilities. No user shall view, copy, alter or destroy another's personal electronic files without permission.

No user may, under any circumstances, use campus computers or networks to harass or defame (slander, libel, etc) any other person.

Computer accounts, passwords and other types of authorization are assigned to individual users and should not be shared with others. Students are responsible for any use of their account(s). If an account is shared or the password divulged, the holder of the account may lose all account privileges and be held responsible for any actions that arise from the misuse of the account.

The deliberate attempt to degrade or compromise in any manner, the performance of a computer system or network or to deprive authorized personnel of resources or access to any Covenant University computer or network is prohibited. Breach of security includes, but is not limited to: configuring software or hardware to intentionally allow access by unauthorized users, creating or knowingly propagating viruses, hacking, password cracking, unauthorized monitoring of electronic communications, or unauthorized viewing of other person's files.

Abuse of campus computer resources is prohibited and includes, but
is not limited to: propagating chain letters, posting a message to multiple list servers, distribution lists, or news groups with the intention of reaching as many users as possible, and the use of computing and networking resources of campus for commercial purposes.

**Internet Connectivity (VSAT)**

Nothing helps you improve your perspective by the day like the ability to do things a little better and a little faster. Telecoms and IT are rapidly growing and evolving. This is obviously reflected in the awakening of the competitive edge around the web, e-commerce and wireless, making Internet connectivity a must for all.

On the Covenant University platform, the addition of a 3.8 m Earth Station dedicated to service Covenant University's IT leading edge drive which provides a very robust 2Meg Uplink and 4Meg high speed downlink band-width to the network is one of the recent developments.

With this already fully functional, it has created a vibrant IT-centric campus with the offices and laboratories located within each College fully networked and connected to the Internet on a 24-hour basis.

The 2.4m Earth Station (VSAT) which now serves as a backup to the main 3.8m Earth Station, in ensuring near zero down time is connected through a different satellite provider and provides Symmetric 512K bandwidth capacity to service the cyber cafes and commercial operations.

Our continuous positive expansion has brought about the completion of an entire network ring as a complete cycle of Fibre Optic connections. The updated configuration consists of a full circuit of multimode and single mode fiber optic links delivering higher bandwidth, better Quality of Service (QS), and improved security on connectivity among the Colleges and the Centre for Learning Resources.

**Webometrics**

The webometric initiative began as a mandate to ensure an acceptable ranking in the overall webometric rating of Universities and Institutions of Higher Learning Worldwide. This resulted in a revamp of the University website with increased content and visibility and definite move towards the deployment of dynamic content management systems across departments. This, no doubt, makes readily accessible in one the University's academic development and social activities.

**Wireless Hotspot**

Wireless hot spots currently exist on a permanent basis at the Centre for Learning Resources and on an Occasional Use (OU) basis at the College of Science and Technology Upper Quadrangle. With these zones, wireless LAN-enabled devices, ranging from laptops, desktops fitted with wireless cards and handheld devices connect seamlessly to both the intranet and internet for effective communication and collaboration.

**Electronic banking and Transactions**

The University's Community Bank is the Covenant Micro-Finance Bank. Other commercial banks are also available for the students' banking needs. The complete installation and commissioning of the electronic transaction has made possible a near cashless environment in the University. Every student of Covenant University is provided with an account and personalized electronic card for financial transactions, including cash withdrawals when required at the ATM machines located within the University community.

**Biometric Machines**

There is the deployment of biometric machines to effectively monitor presence in the Halls of Residence and attendance at core University programmes. This has in no small way enabled better management of students' activities and movement.

**Storage**

The installation and upgrade of snap server farms to provide well over 1.5 Terabyte of Fault Tolerant storage space (1,500 Gigabytes) in managing, protecting and archiving files, records and images has been completed.

**Telecommunications**

There exists a network of telecommunication links which interconnect the existing colleges, hostels and residential areas through two main units of TD 500 Panasonic PABX. This has an installable
capacity of 1000 extensions. One unit is located at the College of Development Studies and the other unit at the College of Science and Technology. There is currently an installed capacity of over 700 extensions. This robust bandwidth has afforded the installation of Voice over IP (VoIP) gateways on the network to convey traditional voice over a data network.

with the rules and regulations in the Student Handbook and in respect of other policies and directives of the University Management.

(i) To make recommendations to the Vice-Chancellor on the nature of offences and the prescribed penalties.
(ii) To review cases already concluded as may be directed by the University Management or when fresh information that was not available at the time the initial conclusions were reached, is received.

(c) Quorum
For any sitting of the SDC, two-thirds of the members shall form a quorum, including the chairman, representative of the Chaplaincy and representative of the University legal office.

2. Procedures and Penalties
In deciding a case, the SDC shall consider the following:

(iii) The penalty prescribed for the offence
(iv) Frequency of the offence in the University
(v) Character of the offender (whether similar or other offences had been committed before).
(vi) Position of the offender among his/her co-offenders.

(a) Filing of Complaints
Complaints may be filed by any student, faculty or staff of the University or visitor to campus against any student(s) or recognised student organisation. One can file a complaint with a staff in the Student Affairs Department or directly to the Dean, Student Affairs for the attention of the SDC. The office of the Dean, Student Affairs will send an invitation to the defaulting student(s), student organisation or staff, indicating the complaint/charge/offence that has been filed. This correspondence requests an investigative meeting and/or hearing with the defaulting student(s) to review the allegations, and evidence.

If a student files a complaint or is accused of violating any aspect of the rules and regulations and an informal resolution is not reached, the student shall appear before the SDC as a complainant or respondent and personally present any testimony, evidence or witnesses that he/she wishes to be considered in reaching its decision. All parties are expected to comport themselves, present the truth and abide by any restrictions that may be put in place while the matter is pending. The parents are usually informed of the outcome of investigations and penalties after approval by the University Management.

The jurisdiction of the SDC extends to misconducts that take place within or outside the University-owned property; at any University-sponsored event or at any location where the misconduct has a significant impact on the mission and wellbeing of the University.

(b) Procedure for Dispensing Disciplinary Cases
A student who violates any University rule or regulation shall undergo the following procedure:

(ii) If a plea of guilt is entered, the case shall be forwarded for consideration by the SDC.
(iii) If a plea of innocence is entered by a student, he/she shall be subjected to further interrogation/cross examination by an in-house investigative panel within the Student Affairs Department.
(iv) When a considerable level of guilt is established, the erring student shall be referred to SDC for determination under a “formal resolution”.

(c) Failure to Fill an Offence Form
Failure to fill an offence form for any violated rule amounts to gross insurbodination, and the prescribed penalty shall be applied.

(d) Failure To Appear Before SDC
Failure to appear before the SDC to respond to allegations or to appear as a witness when reasonably notified to do so will not hinder the process of justice. This standpoint extends to all disciplinary hearings, investigations and appeals. The hearing will be held “in absentia”, and the SDC will review/hear the available evidence/witness(es) and reach a
decision on the matters which shall be binding and not open to pleas except in cases where the accused/witness has any genuine and tenable reason for failure to honour the summons. A student who chooses to leave the University rather than appear at a hearing is deemed to have voluntarily withdrawn from the University.

(E) Informal Resolution
If a plea of guilt is entered by a student who appears before the Dean, Student Affairs, the case could be determined by an informal resolution, with the student's consent. This resolution shall be read by the Dean to the concerned student who shall accept guilt and the penalty in writing. The appropriate penalty shall be communicated to the erring student(s) after approval by the University Management.

(f) Penalties for Violation of Rules and Regulations

(iii) Fines
These must be paid within specified periods to avoid further stringent actions being imposed by the SDC.

(iv) Confiscation of Items
Unauthorised items shall be confiscated from the concerned students.

(v) Reimbursement
Reimbursement requires that a student pays for damage to the University's property or the property of a member of the University Community. (viii) Definite Suspension

(ix) Indefinite Suspension
This is an action that shall exclude a student from all University activities and programmes for undefined period of time within which further investigations shall be carried out to ascertain the level of guilt. Indefinite suspension shall remain in force as long as the issue(s) necessitating the suspension has/have not been cleared.
(x) **Advised-to-Withdraw**
Advised-to-withdraw could be applied in peculiar situations, especially where a student is not a first offender or at the discretion of the Student Disciplinary Committee. Such a student shall be given academic transcripts if applied for.

(Ix) **Expulsion**
Expulsion is the permanent withdrawal of the privilege of registration, class attendance, residence in the Hall of Residence and the use of University facilities. This action means that the student must leave the campus immediately, as he/she is no longer a student of the University ad infinitum, except by a decision of the University Management to reverse the expulsion.

3. **Student Disciplinary Issues**
The offences fall into two categories:
(i) All cases of misconduct, which the Student Disciplinary Committee (SDC) could try.
(ii) Criminal offences, which should be referred to the Police. The final determination of such cases shall depend on the outcome of Police investigations.

Misconducts that the Student Disciplinary Committee (SDC) could try include the following: unruly behaviour, indecent behaviour, vandalism, disorderly assembly, unauthorized displacement of University property, pilfering, stealing, insubordination and gross insubordination, secret cult matters, double matriculation, giving of false identity/information, overt sexual behaviour and harassment, violation of Chaplaincy regulations, violation of residency regulations, violation of dress code, examination misconduct, disregard for cultural ethics and ethos, violation of University's Core Values and any other offence that is not in line with the University's Vision.
